**Casey:** @kjm: are you understanding a little better now? i can ask mrs. vicki to talk about it a little

**Sid:** Correction, freedom they have!

**KJM:** @casey: please ask her I am trying ot look at it

**katie:** @sid: usually it is understood...but if there is misconduct they will get in trouble

**Tayler:** yes, there is always problems with this, but mrs. vicki teaches us against it, and will punish us for inapropriate content

**Casey:** @kjm: i will try to wait for a pause, but i'll ask her!

**Casey:** do you have a specific question, or just about rss feeds in general?

**KJM:** thanks

**Sid:** @katie do you have to sign a use policy?

**Gillian:** @sid: no... if this ever was to occur-ms vicki has the ability to monitor and if necessary edit the blog before it is posted

**Michelle Obert:** What video editing software do you use to capture the movie segments? (like the clip from Pirates)

**Mitch:** @Sid We have not encountered this problem yet but I am sure that many have encountered this problem and all you have to do is teach the studentst what is appropriate and what is not

**Casey:** @michelle: we used cam studio

**Gillian:** class blog meister: <http://www.classblogmeister.com/>

**Casey:** <http://www.rockyou.com/>

**Mitch:** @Michelle Obert I use Windows Movie Maker but you can also use pinnical or Cam Studio

**Michelle Obert:** @casey: So, it will allow you to capture the "less than 30 s" you are allowed to use from a copyright protected movie?

**Tayler:** we have an internet man series that mitch and i created

**LJ:** @mitch: don't forget iMovie if you have a MAC!

**Casey:** @michelle: i'm not sure about copyright issues. what is the less than 30 seconds?

**Tayler:** we shoot video to teach the younger westwood generations how to be safe on things such as using webkins and such

**Mitch:** [www.twitter.com](http://www.twitter.com)

**Casey:** tayler, yall are doing a good job because an elementary student i talked to was really excited about it

**Casey:** katie is waiting on he rmessage to load.

**Casey:** @kmj: mrs. vicki is coming to the rss feeds.

**Tayler:** thank you casey

**Mitch:** @Casey We are currently not working on the secound episode yet but we should be in the future

**Casey:** you're welcome!

**Casey:** well they were excited about it.

**Casey:** they love webkinz

**Michelle Obert:** @casey: According to all of the guidelines I have read, you can legally use up to 30 sec of a movie for instruction. I was asked how to "grab" a few seconds of a movie yesterday by a teacher. I just wondered if Cam Studio would do it.

**Casey:** we're raffling the valentine' sone off for our booth.

**Casey:** cam studio should let you. i used it to clip a video off of youtube in my video for the horizon project

**Casey:** i had a little difficulty with it, but it worked fine once i figured out how to do so

**Mitch:** Cam Studio is a screen capture software

**katie:** sorry Sid

**katie:** my computer was frozen

**Gillian:** twirl reader for microblogging (especially twitter): <http://www.twirl.org/>

**Casey:** <http://camstudio.org/>

**Casey:** <http://www.kerpoof.com/>

**Gillian:** kerpoof; <http://www.kerpoof.com/--great> for elementary

**Tayler:** does camstudio catch audio as well as video?

**Casey:** yes

**katie:** @sid: but at the beginnign of teh year we had to sign a paper that said we would not abuse the internet act unprofessionaly

**Casey:** @sid: a friend of mine got on myspace, and his computer privileges were revoked for a certain period.

**Casey:** because he violated the policy everyon eis required to sign

**Michelle Obert:** @Casey: Thanks! I see that they have a free trial. I will pass on to our teacher who needs this and we will give it a try.

**Casey:** ok! it was very useful for us.

**KJM:** Casey - just looked at site feed tab on my blogspot and I am even more confused I may need individual assistance!!

**katie:** @michelle Obert: you can also just capture a screen by pressing ctrl+shift+print screen and paste it into paint and save it as a picture

**Gillian:** save as picture: .jpg :)

**Casey:** kjm: i will help you or i will ask mrs. vicki to help you!

**Casey:** she should be explaining it soon.

**Mitch:** The Fox is Amazing

**Tayler:** gotta love dat fox

**Casey:** kjm: see if this helps : <http://reviews.digitaltrends.com/guide35.html>

**JB:** As a web developer, I've found features that work great in Firefox but look terrible or don't work in IE

**Casey:** @jb: i much prefer firefox. i get agitated when i have to use internet explorer now. it's hard to go back! it seems to be much slower, too.

**JB:** @Casey: agreed

**Michelle Obert:** @Katie: Well, I think for this project they need an actual clip of live video from a specific movie.

**katie:** firefox it AMAZING!!! i suggest you trying it if you dont have it...it is free and has ALOT of addons!

**katie:** @michelle: ok!

**Cindy:** got a link for firefox

**Casey:** <http://www.mozilla.com/en-US/firefox/>

**Casey:** free and easy to download

**Cindy:** ty casey

**Sid:** I use firefox at home and I love it!

**katie:** @sid: did i answer your question good??

**Sid:** @Yes, thanks!

**katie:** your welcome!

**Tayler:** wiki means quick in polenesian

**Casey:** what mrs. vicki may not mention is that our local newspaper, despite being in several worldwide newspapers and acclaimed articles, would not write about us because they had mistaken "wiki" for "wicca"

**Gillian:** westwood.wikispaces.com

**Mitch:** <http://westwood.wikispaces.com/>

**Casey:** they thought we were practicing witchcraft.

**Mitch:** Up Up away

**Tayler:** mitch, way to blue steal it

**Gillian:** screen shot: Ctrl; Alt; PrtSc

**Tayler:** mitch is a great screen caster

**vthomas:** What was the free site she just mentioned?

**Tayler:** any questions?

**vthomas:** Gene or Jean something?

**Donna:** Gene or jean?

**Gillian:** jing project: <http://www.jingproject.com/>

**Gillian:** \*@vthomas: <http://www.jingproject.com/>

**vthomas:** Is it free to have a wikispaces page?

**Casey:** @vthomas: yes

**katie:** yes

**Sid:** <http://www.debugmode.com/wink/> this is the site for wink, it allows you to create free flash screen casts.

**vthomas:** @ Casey: It looks just like a regular webpage? Is the only difference the capacity and language used to create it.

**Gillian:** dean shareski vid on green screen: <http://flatclassroomproject.wikispaces.com/Keynote>

**Casey:** @vthomas: it's really the content of it. that's the only difference. and of course the url is blank.wikispaces.com, but you can put several things on it.

**katie:** any questions about wikis???

**vthomas:** @Casey: What do you mean about the content on it? Because it's educational content. Is that why it's free?

**Jackie:** @ Vicki, Are you going to address curriculum integration for other subjects?

**KJM:** @casey: HOORAY I have them on google reader!!

**Beth Holmes:** Is there a way to get rid of the advertisements in Ning?

**Casey:** @vthomas: not necessarily...you can put whatever you want on a wiki.

**Casey:** @beth: we may have to ask mrs. vicki about that.

**Gillian:** hello tcnc

**Casey:** @vthomas: this is directly from wikispaces.com : # What are good uses for a wiki?

**Casey:** <http://www.wikispaces.com/examples>

**Casey:** you can edit it to your liking

**Beth Holmes:** Will you ask her, please. The add space is big and very distracting. I did not see adds on your Ning.

**Casey:** help@ning.com

**Dr. Foster:** @anyone lesson summaries, notes collaboration, concept intro. and exploratory projects what were the remaining uses?

**Gillian:** steve hargadon: ning guy

**Gillian:** google his blog

**Casey:** i think this is her blog post on that:

<http://coolcatteacher.blogspot.com/2007/11/how-flat-classroom-project-almost-died.html>

**Mitch:** I have a B-BALL GAME

**rp1000:** AWESOME STUFF.....THANKYOU!

**Jackie:** Way to go!!! You guys are GREAT!!!!

**LittleB:** Suggestion..have Vicki change her font color so it can be read when projected with a digital projector. I have found that what appears on the laptop screen does not always appear when projected.
